# KADEN C. SMITH

Arcata, CA | 707-972-0359 | Kaden.c.smith.2@gmail.com
https://kadencsmith.github.io/kaden-smith-portfolio/

## EDUCATION

**Cal Poly Humboldt** B.S. Mechanical Engineering, expected Spring 2027 | Arcata, CA

## ENGINEERING EXPERIENCE

**CHANGE TECHNOLOGIES INC. — CEO & Co-Founder** | Jan 2023–Present

Design and develop sodium-ion battery packaging and motorcycle concepts with my co-founder; build parametric CAD models and develop manufacturing approaches. Earned state funding and more than $1,000 in business competitions.

**EVERKIN LLC — Head of Engineering, Design & Procurement** | May 2026–Present

Lead design and manufacturing coordination; designed a 2.4 GHz radio receiver and transmitter, including a custom PCB ordered for manufacture.

**SHN — Laboratory Materials Tester** | May 2025–May 2026

Performed concrete compressive-strength testing and supported two project managers. Redesigned and automated ASTM-based reporting spreadsheets; reported reducing combined management workload by approximately 30 hours per week.

**HUMBOLDT COUNTY PUBLIC WORKS — Engineering Aide** | May–Nov 2023

Conducted materials testing and analyzed results using California Test Methods; maintained data sheets, improved spreadsheets and participated in engineering meetings.

## SELECTED PROJECTS

Thermal busbar modeling: Built a Python 3D simulation exploring thermal management and conductor mass. | CNC: Built a three-axis machine capable of cutting titanium. | Fabrication: Welding, sheet-metal work, tooling, resin and filament 3D printing, and ESP32 prototypes.

## TECHNICAL SKILLS

Autodesk Fusion and parametric CAD; Python; Microsoft Excel and automation; blueprint interpretation; additive manufacturing; prototyping; materials testing; design and procurement.

## CALIFORNIA TESTING CERTIFICATIONS

CT 125 (Aggregates, General and HMA sampling); CT 206 (coarse aggregate specific gravity and absorption); CT 211 (LA Rattler); CT 212 (aggregate unit weight); CT 231 (nuclear-gauge relative compaction); CT 375 (nuclear-gauge asphalt concrete density).
